

# Share Caretta's story and protect South Carolina's state reptile!!!

*Did you know turtle hatchlings require the travel from their nest to the ocean in order to build up strength for the journey ahead, so interfering by helping it to the ocean actually lowers their chances of survival?*

## A TURTLE NAMED CARETTA

*Written by Ruth "Booie" Chappell  
Illustrated by Dean Wroth*

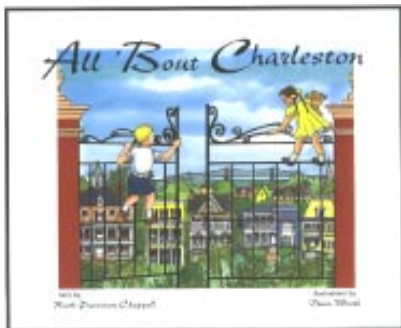

**Caretta, named from the scientific term for loggerhead sea turtles, finds a young boy digging near her precious eggs and stops him just in time to see her dear babies find the sea by moonlight.**

Softcover, 0-87844-188-3/978-0-87844-188-4

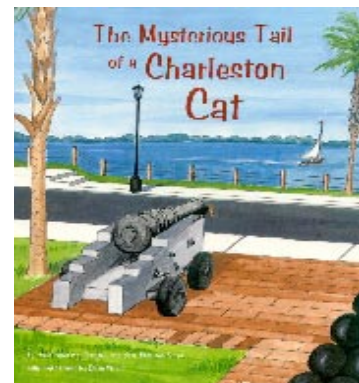

South Carolina is considered to have some of the most pristine nesting areas used by loggerhead sea turtles on the eastern coast. This book will educate young readers about the dangers of habitat destruction with hopes to increase the survival rate of baby turtles.

Other books written by "Booie" Chappell and illustrated by Dean Wroth:

*All 'Bout Charleston* (PB) \$9.95

*The Mysterious Tail of a Charleston Cat* (PB) \$13.95
